Holiday Project Checklist

Planning

- ☐ Define which countries/regions the project supports.
- ☐ Identify official public holidays for each region.
- ☐ Determine whether company-specific holidays must be included.
- ☐ Decide how floating holidays and optional holidays are handled.
- ☐ Document holiday business rules.

Data Management

- ☐ Create a holiday calendar data source.
- ☐ Store holiday names, dates, and regions.
- ☐ Support recurring holidays.
- ☐ Support holidays with changing dates (e.g., lunar-calendar holidays).
- ☐ Validate holiday data annually.
- ☐ Plan for future-year holiday updates.

Application Logic

- ☐ Exclude holidays from working-day calculations.
- ☐ Adjust deadlines that fall on holidays.
- ☐ Handle holiday overlaps with weekends.
- ☐ Support half-day holidays if required.
- ☐ Test date calculations across holiday periods.

User Interface

- ☐ Display holidays on calendars.
- ☐ Highlight upcoming holidays.
- ☐ Provide holiday tooltips/details.
- ☐ Allow filtering by region/country.
- ☐ Show holiday impact on schedules.

Notifications & Automation

- ☐ Send holiday reminders.
- ☐ Pause or adjust automated workflows during holidays.
- ☐ Update SLA or delivery expectations.
- ☐ Notify stakeholders of holiday-related delays.

Reporting & Analytics

- ☐ Exclude holidays from productivity metrics where appropriate.
- ☐ Track holiday-related operational impacts.
- ☐ Verify reporting accuracy around holiday periods.

Testing

- ☐ Test year-end and new-year transitions.
- ☐ Test leap years.
- ☐ Test movable holidays.
- ☐ Test multi-region holiday scenarios.
- ☐ Perform regression testing after holiday data updates.

Deployment & Maintenance

- ☐ Review holiday calendars annually.
- ☐ Monitor government holiday announcements.
- ☐ Update holiday datasets before each new year.
- ☐ Document update procedures.
- ☐ Assign ownership for holiday maintenance.

Final Review

- ☐ Holiday requirements approved by stakeholders.
- ☐ Holiday data verified for all supported regions.
- ☐ Test cases completed successfully.
- ☐ Documentation updated.
- ☐ Production readiness confirmed.
