Respected sir,

I have a saving account in your bank. The account no. is **28792128639**. I have received net banking user id as 14598793578 but unfortunately, I have lost the password. the current mode of delivery of transaction password document is "By Post".

I would like to change my 'mode of delivery` as "Email" to receive my password urgently. It is on high priority. please send the request to your main branch the earliest.

Thanking you in anticipation.

Regards,
