

WHAT IS ART?

The background of the slide is a reproduction of the painting 'The Starry Night' by J.M.W. Turner. It features a turbulent, swirling blue sky filled with numerous bright, glowing yellow and white stars. In the lower-left foreground, dark, silhouetted shapes represent the spires of a Gothic church. The overall texture is highly visible, showing the brushstrokes used in the original painting.

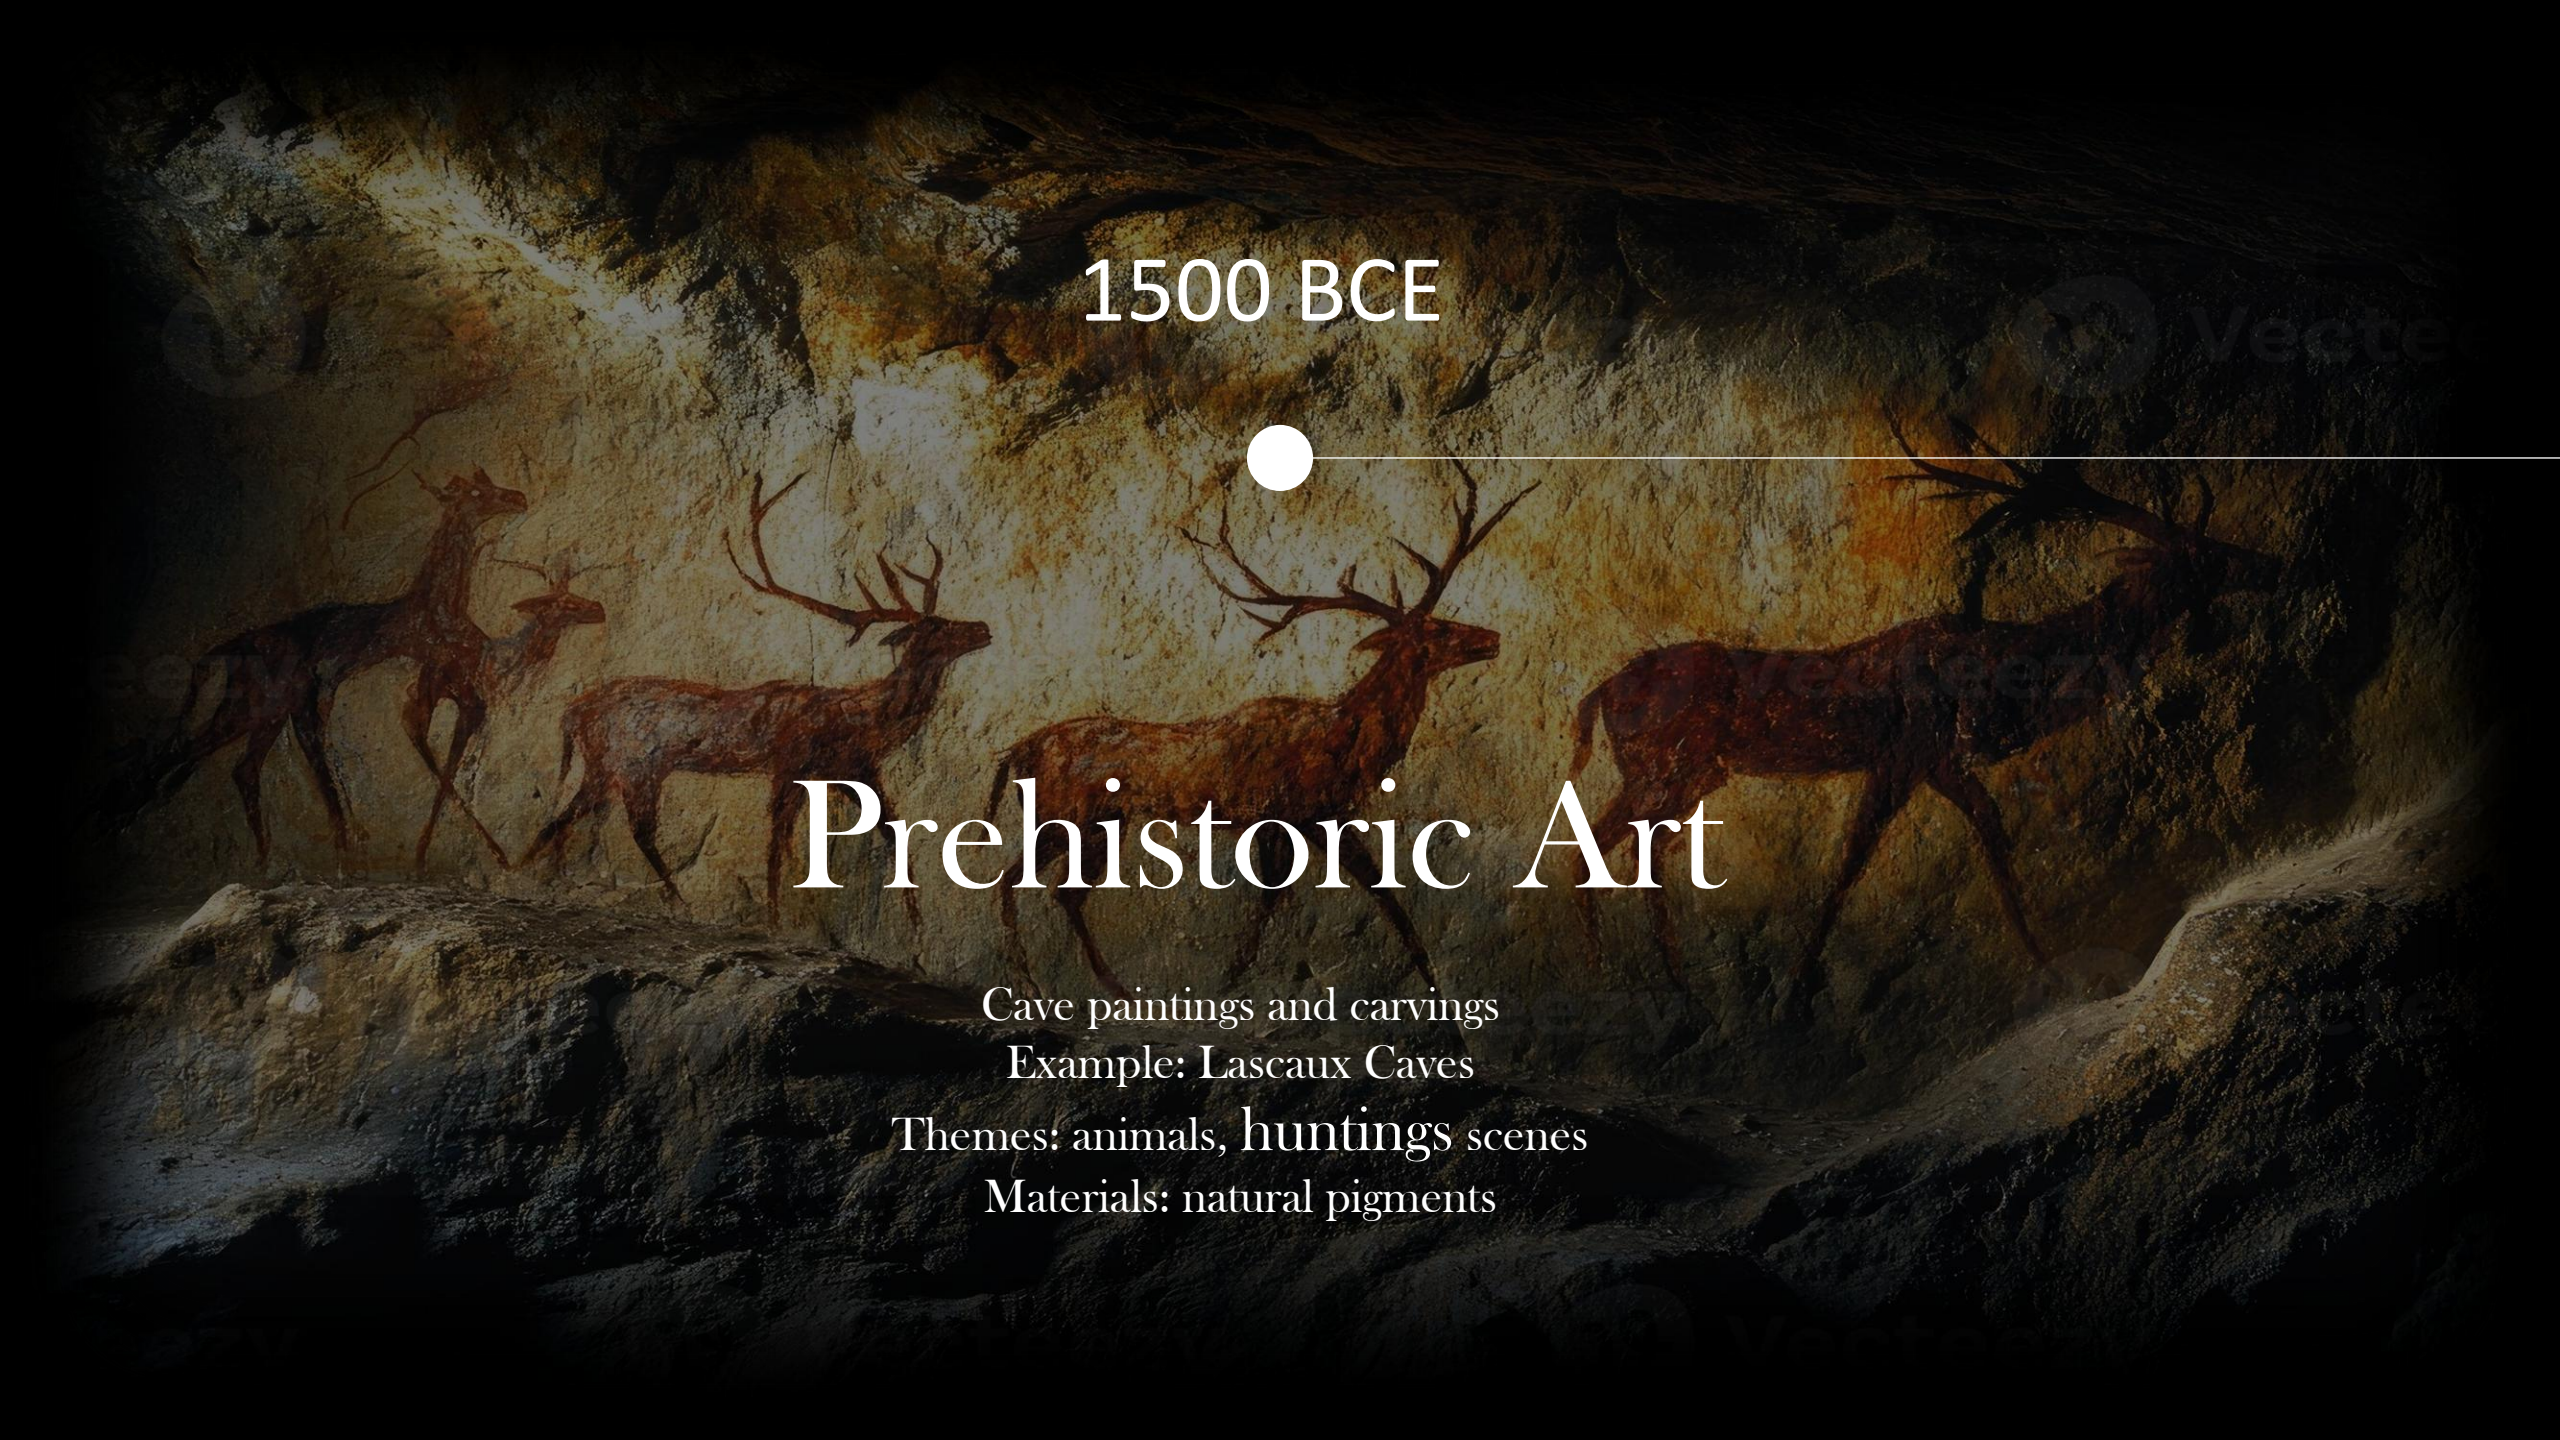

HISTORY OF ART

Art has existed for thousands of years.

The history of art shows how humans have expressed ideas and emotions over time.

Art began in prehistoric times with cave paintings like those in the Lascaux Caves.

Ancient civilizations such as Egypt and Greece used art to represent gods, rulers, and daily life.

The background of the slide is a photograph of a cave wall covered in prehistoric paintings of deer. The paintings are in shades of ochre and red, showing several deer with large antlers in various poses. The cave wall itself is textured and uneven, with some areas appearing darker and more shadowed than others. A white dot is positioned on a horizontal line that spans the width of the slide, centered under the date.

Cave paintings and carvings

Example: Lascaux Caves

Themes: animals, huntings scenes

Materials: natural pigments

The background is a large, detailed painting in a Baroque style. It depicts a celestial scene with numerous angels, some holding musical instruments, and a central figure, possibly Jesus, surrounded by a bright, golden light. The composition is dynamic, with figures in various poses and a rich, dark color palette. The text is overlaid on the upper half of the image.
